SUMMARY This publication is intended to provide guidance in determining crop water requirements and their application in planning, design and operation of irrigation

Crop water requirements - Food and Agriculture Organization

This rule modifies the testing procedures approved for analysis and sampling under the Clean Water Act. The changes adopted in this final rule fall into the following categories: New and revised EPA methods (including new and/or revised methods published by voluntary consensus standard bodies...

Federal Register :: Clean Water Act Methods Update Rule

Ultrapure water (also UPW or high-purity water) is water that has been purified to uncommonly stringent specifications. Ultrapure water is a commonly used term in the semiconductor industry to emphasize the fact that the water is treated to the highest levels of purity for all contaminant types, including: organic and inorganic compounds; dissolved and particulate matter; volatile and non ...

Ultrapure water - Wikipedia

The EPA Quality Program provides requirements for conducting quality management activities for all environmental data collection and environmental technology programs performed by or for the Agency. The primary goal of the program is to ensure that the Agency's environmental decisions are ...

How EPA Manages the Quality of its Environmental Data
