6. Are our attempted cost cuts strategic or creating cyclical problems? If cutting costs in one area creates different costs in another, your strategy won't work. For example, if you decide to build an element of your product yourself instead of purchasing it, make sure this is a long-term scalable cost management strategy.

effectiveness. This is where the value perspective could add to the strategic cost management of a support function. To the best of our knowledge VCM has not been applied to the support function context. Consequently, the additional value perspective could add to the strategic cost management of a support function.

A case study of a support function in a large

Strategic cost management is the process of reducing total costs while improving the strategic position of a business. This goal can be accomplished by having a thorough understanding of which costs support a company's strategic position and which costs either weaken it or have no impact.
