Technical Resources and Course Web Site for Data and Computer Communications, Sixth Edition by William Stallings Winner of the 2000 award for long-term excellence in a Computer Science textbook, awarded by the Text and Academic Authors Association, Inc.

Data and Computer Communications, Sixth Edition

A computer network, or data network, is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as WiFi. Network computer devices that originate, route and terminate the ...

Who Files What? All facilities-based broadband providers are required to file data with the FCC twice a year (Form 477) on where they offer Internet access service at speeds exceeding 200 kbps in at least one direction. Fixed providers file lists of census blocks in which they can or do offer service to at least one location, with additional information about the service.*
