Oncology and Hematology : NEJM Journal Watch

Cancer represents a significant, and growing, burden on healthcare systems. This is driven, at least in part,

by escalating cancer drug budgets. Loss of patent protection on biopharmaceuticals enables the development and production of similar biological medicines, or biosimilars. Biosimilars are currently available for use in oncology in the supportive care setting; the focus of biosimilar ...

Oncology is a branch of medicine that deals with the prevention, diagnosis, and treatment of cancer. A medical professional who practices oncology is an oncologist. The name's etymological origin is the Greek word *ὄγκος* (*Ṓnkos*), meaning "tumor", "volume" or "mass" and the word *λόγος* (*logos*), meaning "study". Cancer survival has improved due to three main components including improved ...
