Financial Analysis Report Samples in PDF

Financial statement analysis is pretty much just what it says "the study of a company's financial statements to determine the past and future performance of the company.

Financial Statement Analysis

The analyst draws the financial data needed in financial analysis from many sources. The primary source is the data provided by the company itself in its annual report and required disclosures. The annual report comprises the income statement, the balance sheet, and the statement of cash flows, as well as footnotes to these statements.
