Picaxe Projects #1: Making Fast Printed Circuit Modules: Experimental circuit board modules can be made quickly and fairly easily. They have the advantage of being more than twice as fast to build than a custom circuit board. They are also easy to test in a breadboard. The modules detailed here are ones...

The PDF accessed via the PE (it appears to be the pdf in the datasheets folder) has different code from that in .bas in the samples folder and does not include the random command! #update Hmm, Just had a look at the code in the PDF. It says at the top "Dice using random command". However there appears to be no code for the random command.
