STRATEGIC FRAMEWORK FOR QUALITY ASSURANCE COMPONENT

In the context of software engineering, software quality refers to two related but distinct notions that exist wherever quality is defined in a business context: . Software functional quality reflects how well it complies with or conforms to a given design, based on functional requirements or specifications. That attribute can also be described as the fitness for purpose of a piece of software ...

Quality management ensures that an organization, product or service is consistent. It has four main components: quality planning, quality assurance, quality control and quality improvement. Quality management is focused not only on product and service quality, but also on the means to achieve it. Quality management, therefore, uses quality assurance and control of processes as well as products ...
